

# Multispecialty Documentation Requirements

## Pulse Oximeter Required Documentation

- The Multi-Specialty Services Prior Authorization Request form.
- Current Physician order with NPI number, not greater than **1 year prior** to the request. We do not accept ARNP Orders, they require a co sign by the physician.
- Diagnosis must be evident on the Physician Order or Clinical Supporting evidence supporting the request. ICD codes alone will not be accepted.
- Current and complete recipient information on the Multi-specialty Services Prior Authorization Request in detail as well as the provider detail information including Provider ID.
- Current, within one **year** of the request, clinical information supporting need with minimum requirements being age, diagnoses that support the need for continuous oxygen saturation monitoring such as tracheostomy placement, ventilator dependency, receipt of continuous oxygen, utilization of BiPap.
- Cost of supplies.

## Wipes Required Documentation

- Multi-Specialty Services Prior Authorization Request Form.
- Current Physician order with NPI number, not greater than **1 year** prior to the request. Order may not be signed by an ARNP unless co signed by a physician.
- Diagnosis must be evident on the Physician Order or Clinical Supporting evidence supporting the request. ICD codes alone will not be accepted.
- Current and complete recipient information on the Multi-specialty Services Prior Authorization Request in detail as well as the provider detail information including **Provider ID.**
- Clinical Information: Current, within in one year of the request, clinical information supporting need with minimum requirements being age, diagnoses, and identification if incontinence is daytime and nighttime and not occasional.
- Cost of supplies.
