- If you need to make a change to the start date of service, or extend an authorization, please contact our Customer Service Dept. they will put in a request to update the case. A new authorization request should not be entered.

Physician Procedure

CPT Code **41899**- Dental Surgery Procedure.

Please make sure to list what is expected to be done with pricelist.

- Extractions
- X-ray
- Filling
- Cleaning
- Fluoride treatments
- Special procedures not listed

Note: This authorization is for an outpatient physician procedure, not the stay. The PA# that is assigned is for the physician not the facility.

Important things to remember

If you obtain authorization for an inpatient request however, a multispecialty service has been requested during that stay, a new request will need to be entered in eQsuite for that service.

Physician services requires the Medicaid ID# for the physician
• *(Group Medicaid ID#s should not be used)*

Please note there is no longer a 120 day cap on the date span

If you have more than one Multispecialty request you must enter a separate request on eQsuite for each service.
